OBITUARY

The funeral of the late Mrs. Horace E. Johnson took place on Saturday, June 9th, from Shaver's funeral home, Calgary. The service was conducted by Rev. Mr. G. A. Dickson and the beautiful casket was heaped with flowers, the tributes of hosts of friends in Champion and elsewhere. Interment took place to the Calgary cemetery.

Rev. Mr. Newell officiated in Hutton Chapel, Washington on Friday 28th, 1882, where her birthplace was spent. She was married to Horace E. Johnson on Dec. 4th, 1900, and with him moved to the Champion district in 1904, where they resided until 1910. They then moved to Lethbridge, Alberta where she has since resided, ten miles northeast of Champion. Being among the earliest settlers the family were very widely known. The deceased was of a lively disposition and had many sincere hosts of friends, taking a deep interest in every movement pertaining to the advancement of the community. An elocutionist of real ability her services were sought for entertainments and in this connection she will be sorely missed.

She is survived by her husband, Mr. E. Johnson and three daughters, G. M. and G. D. of Albany, Oregon, and B. A. of Bend, Oregon.

The family have the sincere sympathy of hosts of friends in their sad bereavement.

Mrs. Chapman and family wish to thank the following for their flowers during the time of sickness and after the death of the late Matthew Chapman: Champion Women's Institute, Champion Elk's Lodge, Mr. and Mrs. J. M. Moffatt, Champion Ladies Aid, Mr. and Mrs. W. M. Patterson, Mr. and Mrs. Bobb, Tyler, Mr. and Mrs. Fred Wise, Mr. and Mrs. Harry Erskine, Lomond; Mr. and Mrs. Kinnear, Lethbridge; Dr. and Mrs. Amity Club, Blenheim district; Dr. Mr. and Mrs. Freeze, Mr. and Mrs. H. Higgins; Leroy Woodworth, Mr. and Mrs. E. Donaghy, Lomond; Mr. and Mrs. N. C. Smith and Mr. and Mrs. J. Chapman, Reid Hill.

They wish also to thank the neighbors for their kindness during the illness of the deceased.

A still higher margin of protection against car thefts is now provided buyers of Pontiac Sixes through a new type of outside door handle which is designed to prevent the thief.

The new door handle is so designed that the customary method of forcing with a wrench or a section of iron pipe will not give the thief entrance to the car. When the extreme pressure is applied to the handle it merely turns without releasing the door catch. A few seconds of attention at any Pontiac service station will restore the handle and insure its continued effectiveness. Thus General Motors has raised an almost impregnable first line of defense. Should a thief effect entrance by breaking a window or because the owner forgot to lock the car, he will need to force his way in through the second and third lines of defense. These are provided by the semi-coincidental lock which locks both the ignition and the transmission with a turn of the ignition key down to the transmission. The Pontiac Sixes with their effective lines of defense are said to be nearly theft-proof as any car in America.

Orville Harper and D. Hummon were members of a party from Carmangay and vicinity which left recently for the northern prairie wheel and deal. It is expected that a large amount of that promising country will be made. Settlers are moving into the north country at such a rapid rate that it has been found necessary to increase the right of way on the C. P. and B. R. R. in order to accommodate the large amount of settlers effects billed over that railroad. The return of the party will be anticipated with interest as a first hand report of the last great west will then be available.

A week of cool weather has added largely to the effect of the recent rains and crops of grain in the district are as promising as they could possibly be. Weeds made rapid progress during the dry period on stubble land, but the grass will soon smother them as the weather continues. Gardens are infested with cut worms in town and some complaints come from the country, but these pests do not seem to be working in the fields to any noticeable extent. Taken on the whole the situation is very satisfactory.

ALEXANDER—LANG

A matrimonial event of interest to Championites took place in Lethbridge on Saturday, June 9th, when Miss Mamie Lang of Retlaw became the bride of Mr. Alexander Lang, Secy. Treasurer of the Mountain District of Harmony. The ceremony was performed by the Rev. W. E. Kelly in the Presbyterian Church. Mr. and Mrs. Alexander will reside in Champion, staying at present at the Savvy hotel. The Chronicle hastens to join in congratulations to the newlyweds.

NELSON—SULLIVAN

The marriage was solemnized at Wesley parsonage on June 5, Rev. Robert Pearson officiating, when Miss Cecilia Sullivan of Travis became the bride of Mr. Gerald Beauford Nelson, also of Travis. After a short honeymoon Mr. and Mrs. Nelson will make their home in Travis—Lethbridge Herald.

Councillor Gill suggests that as he is the only councillor going out next year the suggestion there will be a better attendance at the next annual meeting of ratepayers becomes almost imperative. There was no mention of being taken in that way. The conclusion was reached that as expenditures increased the village ratepayers would naturally rouse themselves a little, anyway.

Joe Bennett left last week for Peace River, where he intends locating. As he intended exploring the Rockies, for several days he has purchased a car and made the trip in style. An enthusiastic curler he will be missed here when curling time comes this fall and many friends will wish him success in his new home, wherever it may be.

Up to date H. E. Gill has shipped 1,100 bags from Champion this year. Of course there have been other shipments made from this point but for an individual record it would appear that Mr. Gill would easily qualify as the "King Log" of this vicinity. The shipper had destinations in every direction.

Patio bugs are unusually bad this year and the why and wherefore of this visitation becomes a subject of much interest. Several explanations have been furnished in regard to this and the best one has not yet been picked out for Chronicle readers. The bugs are here, however, no matter just why.

Jas. McNaughton was a visitor here on Tuesday afternoon and called on a number of old friends. He is a member of the brass band and always welcome on his visits, which are only too few and far between. Just now Mr. McNaughton is much interested in promoting the interests of the Carmangay Agricultural Society, of which he is a member. The organization is making a special effort to make this year's the best ever and reference to another column will provide notice of an effort to stage a show in the near future at Carmangay and Champion in this event. Mr. McNaughton accompanied him on Tuesday and attended the W. I. meeting.

Omitted Last Week

Mrs. N. J. Beaubier, Mrs. O. Harper and Mrs. Geo. Taylor attended the Grand Lodge of the O. E. S. in Calgary, as representatives of Champion Chapter.

Misses Philippot and E. Philippot were delegates from Champion to the Borden convention in Calgary.

Mr. and Mrs. McKibbin of Carbon, and Miss Kathleen Watkins of Calgary, spent the weekend with their parents, Mr. and Mrs. W. E. Watkins.

Mrs. J. F. Price entertained at dinner on Friday in honor of visiting W. I. delegates, Mrs. J. N. Beaubier and Mrs. F. C. Acock of Champion being among the guests.

Mrs. W. M. Isaacson and Mrs. J. Bellingssner were W. I. delegates to the convention held in Calgary.

The play put on by the Alister Dramatic Society on May 24th, was a splendid success and the fact that other attractions interfered somewhat. The play "Civil Service," was given under the auspices of the Women's Institute.

A kitchen shower was held at the residence of Mrs. Geo. Wighton on Tuesday, June 6th, under the auspices of the Golden Rule Women's Institute. A large number of people joined in the event. A splendid time was spent, the gifts were many and useful and were duly appreciated. Mr. and Mrs. Wighton had the misfortune of being burned out a few weeks ago, losing everything in the way of household goods.

NOTES AND COMMENT.

The ordinary house fly lays about
120 eggs at one time, and the product
of these eggs are ready to begin lay-
ing in two weeks. No wonder there
are lots of flies.

The Country Gentleman sees a
period in prospect in which more and
better farm dollars will be available.
The upturn trend in all prices is the
main factor noted for the future, but
the increase in all lines of busi-
ness is also noted. The whole of Can-
ada, particularly including the prov-
ince of Alberta, is also gaining rapidly
in the material regards greater pros-
perity and the immediate future looks
exceptionally bright.

If you have a news item for the
paper please make an effort to get it
into my office as early in the week
as possible. At the present time
Thursday seems to be the only day
on which it is possible for anyone to
think of anything connected with the
newspaper. As a consequence all con-
tributions come in at the last moment, with
the result that in the rush omnibus-
es are made which would be inexorable
if the matter came to hand earlier in
the week. There is no desire to dis-
courage the contribution of news.
These are just as desirable as the
earlier items. Simply try to get the
matter to us at the earliest possible
time. This will help wonderfully and
will prove as satisfactory to you as
to us in results achieved.

An effort, which promises to be
successful, is being made to change the
Chautauqua from the fall to a
summer term, owing to the fact
that there is no room here enough
to accommodate the public for such
an occasion. Should the change be
made Chautauqua will be here about
August 1st instead of in October and
at a time will provide housing accom-
modation. There would be one more
afternoon program in the summer
circuit.

W. C. Smith, supervisor for
District No. 16, which includes the
municipal districts of Harmony, Royal,
Marquis, Dinton, Riley, Sheep Creek,
Stockland and some unorganized ter-
ritory, was a visitor here this week.
Mr. Smith said that the area he
is placed in of recent improvement
in the wood situation in this vicinity, a
statement with which most of the
residents will agree. In company with
representatives of the lumber companies he
visited several points in this vicinity,
where action of some kind was con-
sidered necessary to stop the continued
spread of dangerous weeds.

Judgment in Local Threshing Case

Calgary, June 8.—When a threshor
has contracted to thresh a whole crop
in the absence of any stipulation to
the contrary, his money is due as it
is earned.

When he has agreed to thresh a
whole crop and weather conditions
have not improved, making it impos-
sible to continue, he has a valid
condition ascribed to the contract as to
what "fair and reasonable men
would presumably have agreed upon
if their minds had been directed to
the question."

In the absence of any definite
stipulation with respect to the weather
conditions, and weather conditions
have not improved, making it impos-
sible to continue, he has a valid
condition ascribed to the contract as to
what "fair and reasonable men
would presumably have agreed upon
if their minds had been directed to
the question."

About the gist of the judgment
written by Chief Justice Harvey and
concurring in by Justice Hyndman, Clarke Mitchell and Lunney and which
settles the law of Alberta with regard
to threshing contracts. The
appeal court gave judgment in favor of
John Klein, a threshor in the
Champion district vs. Wm. John
Sander, a farmer in the same district,
with costs. This was on an
appeal for a judgment of Mr. Justice
Fod, who found in favor of Sander-

**Conquest of the Air
For Commerce**

Commercial aviation is on the eve
of tremendous expansion in this
country. Canada has lagged behind
the procession but is taking measures
to catch up with other nations. The
Dominion is bound to profit by the ex-
periences of countries more advanced
in the flying game. This is already in
evidence in the strict regulations
pronounced regarding the qualifica-
tions of pilots. Unlicensed flying will
not be allowed. This and the scrapping
of the old war surplus machines
should reduce accidents to the min-
imum.

The records established by several
other countries emphasize the safety
of flying under present day condi-
tions. In the United States there are
15,000 miles of organized airways re-
quiring 30,000 miles of flying daily.
There are 150,000 pounds of mail
carried in a month. These lines had
one fatality in 1926 and one last year,
both due to weather.

Sixty thousand passengers were
carried by air in Great Britain last
year with no accidents resulting in
death or injury to passengers. The same
fine record was maintained in
1925 and 1926. In Australia, 551,730
passengers were flown in 1927 with no
serious accidents to mar the record.
In Sweden, 35,000 passengers were
transported by the Swedish Air
Transport last year without an acci-
dents, while in France and Germany
there was one fatal crash in
each case. These two countries are doing
the bulk of commercial flying on
the continent.—Albertan.

**Leave All Your Old Ideas at the Showroom Door**

UNLESS you have already examined the New Series Pontiac Six and driven it . . . your ideas of six-cylinder car value are due for radical revision.

Leave those old ideas at the showroom door. Come in and see the car. Then drive it.

Get the feel of the big, smooth six-cylinder engine, with its GM-R cylinder-head. Let the car leap forward at a touch of your toe on the accelerator. Bring it to a swift stop with a gentle pressure of the positive four-wheel brakes.

And, all the time, experience the easy-
going comfort of the four Lovejoy
Hydraulic Shock Absorbers and the luxury of a perfectly-appointed, beau-
tiful Fisher bodies.

Then—learn Pontiac's amazingly low
price—and you have discovered a six-
cylinder value that upsets every pre-
conceived idea you may have had.

Ask your dealer about the G.M.A.C. Deferred Pay-
ment Plan which makes buying easy.

THE CHRONICLE, CHAMPION, ALBERTA

Local and General

Mrs. J. Castor is in Calgary taking medical treatment.

Reward—Man's necktie lost at Lethbridge. Finder please return to Fred Welsh.

The Ladies' Aid will meet at the home of Mrs. F. Göttenberg on Thursday, June 21st.

Mrs. McCarty and daughter of High River are visiting the former's sister, Mrs. J. Archibald.

Mrs. Martin Dawson and daughter Betty of Edmonton are guests of Mrs. J. N. Beaubier this week.

Carmangay and Champion junior baseball teams met at Carmangay on Wednesday evening, Carmangay winning by the close score of 10-9.

Bert Hoskins received his certificate on Wednesday having passed the primary division in violin at the Conservatory of Music, Lethbridge.

The finder of house plate 29-277 or 291-277 Wash. will confer a favor by leaving at Chircote office. Lost on Fire guard trail west about June 5.

Vulcan W.I. will entertain the members of the Champion branch on Saturday evening, June 23rd, and all who can attend are requested to communicate with the president, Mrs. J. N. Beaubier, at an early date as possible. As large an attendance as possible is urged on this occasion.

Vulcan nosed out the Champion team at a game played in Carmangay on Wednesday afternoon by a score of 9-8. Welsh pitched the first five innings for Champion and was relieved by J. Walker, who finished the game. Wilson and Reor were in the points for Vulcan. There was a fair crowd in attendance at the game, while the dance later in the evening was well attended.

Card of Thanks

Mrs. Bastin and family wish to thank the Women's Institute, Excelsior C.G.I.T. group, and numerous friends, for many acts of kindness and sympathy during their recent illness.

Test Chemicals For Destroying Weeds

A series of tests to determine the value of two chemical preparations in the destruction of Canada thistle, sow thistle and dock grass is being conducted at a number of points in the provinces under the direction of field crop commissioners W. J. Stephen. The first of these, known as the Chipman Atlas non-poisonous weed killer, is manufactured in the United States and second is a preparation formulated by A. W. Wadden of Gainsford, Alberta. The first trials of the efficiency of these chemicals were made on a number of plots in the vicinity of Edmonton on June 8 and additional tests will be made at a number of points before an announcement is made as to their value.

Hospital and Health Associations to Meet

The annual convention of the Alberta Hospital Association, the Alberta Registered Nurses' Association and the Alberta Public Health Officials' association will be held in Calgary on Monday and Tuesday, June 25 and 26. An interesting program of value to all those engaged in hospital and public health work is being arranged, and among the speakers who

**PRIZE LIST W.I.

Following is the prize list for the annual Flower Show, held under the auspices of Champion W.I., the date will be heard are a number of outstanding authorities on problems of public health.

**Has Poor Opinion
Of Chester Whites**

S. G. Freeborn, district swine grader, of Calgary writes the Albertan as follows: "The talk muched of Chester White hogs being distributed by the Central United States Swine Company made their bow to the commercial market here on Friday last when 10 of the \$100 breeding beauties were shipped back from Innisfail to the Alberta stockyards. Their market valuation was about one-seventh of the price such stock has been sold by the company for breeding purposes. They may be featuring in the manufacture of sausages by now as they went to New Westminster with the usual butcher shipments. Further arrival of Chesters at Calgary include a shipment of 31 gilts including a dozen that are estimated total weight less than 170 pounds. Evidently the supposed ton litter proclivities of the Chesters are not much in evidence in these importations."

This proposition of the Central United States Swine company was a "pig in a poke" when it started here. Now, we know just what the farmer can expect. If he feels he must respond to the blandishments of a high pressure salesman surely isn't the fault of the newspapers.

Letters to the Editor

That Weed Crusade

Champion, June 12th, 1928
Mr. Editor—

I read in your paper some time ago that war on weeds was to occur this year. Well, stink weed is a foot high and gone to seed. Did you get that from our same old council? I have been here for 21 years and have never seen a weed inspector in all that time. I expect there is one drawing a salary.

Yours respectfully,
Tax Payer.

Lost

No. plate 13-130 and tail lamp, between town and misname ground on Monday, June 11th. Finder please return to owner, Ray Taylor, or leave at Chircote office.

Public Notice

All parties are hereby advised that, on the morning of the N. E. 1 of Section 10-21 W. 4 is forbidden and that action will be taken against anyone using same as a thoroughfare in future. Mrs. Mabel Sutton. June 14 1928

WHEN BETTER AUTOMOBILES ARE BUILT—MC LAUGHLIN-BUICK WILL BUILD THEM

**The Only Car
with a Sealed Chassis
fully guarded against dirt,
dust and moisture—and offering
protected performance**

IT is the fashion of the day to place first importance on motor car beauty; and for this the alluring beauty of McLaughlin-Buick is ample, low-grade bodies by no means responsible. You keep in mind that you get many things besides beauty when you buy a McLaughlin-Buick. You get unequalled riding ease—vibrationsless performance—unparalleled reliability—dependability of the world-famous McLaughlin-Buick Sealed Chassis and Triple-pledged Engine.

The twin virtue of the McLaughlin-Buick chassis is enclosed in dirt-proof, dust-proof, water-tight housing to assure reliability and long life.

And McLaughlin-Buick protects you by unique Headlight, full guard by suncease ventilator, air cleaner, oil filter and gasoline strainer.

McLaughlin-Buick is the only car offering this twin protection under all road and weather conditions.

Admire McLaughlin-Buick beauty—but insist on McLaughlin-Buick dependability. It's a wonderful buy. And in these days when all cars are assumed to be dependable.

M-8-25C

The G.M.A.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

East Is Coming West

The recently announced decision of the General Motors Corporation of Canada to proceed immediately with the erection of a million dollar manufacturing and assembly plant at Regina is gratifying news, not alone to the citizens of the capital city of Saskatchewan, but to all Westerners, because it is a recognition of the fact that the leaders of industry have come to a realization of the fact that the eastern continent indefinitely to secure a rapidly growing western market from factories located thousands of miles away, and compelling the western purchaser to pay greatly enhanced prices by reason of freight charges based upon the high classification imposed upon finished articles.

Western people have contended for some time now that the logical initial development in Canada is the establishment of branch factories in the West. There was a time, not more than a couple of decades ago, when the view prevailed that the western market could be supplied not only from Eastern factories, but from Western wholesale houses. Gradually, as western population grew and the volume of business increased, and as wholesale houses in the East began to actually spread all over the West, until today wholesale establishments located in all the larger western centres of population very largely supply western needs.

The same development which thus characterized the business of wholesaling and distribution must inevitably now follow in the work of manufacturing itself. Freight charges on the transportation of necessary raw materials from the East to the West will, in the case of the finished products, while the opening of western factories may, and in all probability will, encourage the production for use of certain raw products of the West which today lie undeveloped because of a lack of market.

The decision to locate branch industries in the West is furthermore pleasing to western people because it indicates recognition by Eastern industrial leaders that the fact is that the leading centers of the country are in the West, and if past lines of separation between east and west are wiped out, and a new national viewpoint developed, the East cannot continue to merely accept the expanse of western trade and profits in years of good crops and times of plenty, but must come west and throw in their lot more wholeheartedly with the people here and, while benefits in years of plenty are derived by the people here, carry their share of the burdens in years of crop and business depression.

With wonderful activity prevailing in the work of prospecting and developing the immense mineral areas of the northern portions of the three prairie provinces with large scales of power development now receiving attention, and with the new, larger, more national viewpoint gaining headway among the people of the West, there is every reason for saying that a new era in the history of the West is at hand.

While the West will long continue to excel as an agricultural country, and will steadily expand its annual production from its rich prairie lands, it seems safe to predict that from this time onward industrial development will increase in keeping with the agricultural growth and mineral development of the country.

Such development offers the best and most practical solution of one of the West's big problems, namely, the unemployment difficulty which annually presents itself because of the seasonal nature of the basic industry of this country. In this connection it is pointed out that the "peak" period of employment in the mining industry in the East, there is every reason to believe, is in the winter months of January, February and March.

While the West will long continue to excel as an agricultural country, and will steadily expand its annual production from its rich prairie lands, it seems safe to predict that from this time onward industrial development will increase in keeping with the agricultural growth and mineral development of the country.

Viewed from all standpoints, therefore, the whole West can unite in welcoming the momentous decision of one of Canada's greatest industrial concerns to establish a large branch factory in the heart of the prairie west. Its actions will be but the harbinger of many similar decisions by other large manufacturers, and a resultant development from every Western centre, and every Western citizen, will benefit.

Alberta Sells Railway

Purchasers—Ottawa Budgets and Titles To the Locomotive and Northern Western Railways

A cheque for \$1,510,582.59, turned over to the provincial treasurer of Alberta, by the Canadian Pacific Railway, has paid the purchase price of the Locomotive and Northern Western railway. The company obtained full possession, right title of the latter property, with all securities and capital stock of the land of the company. The two directors and D. C. Cole, managing director of the Canadian Pacific, G. A. Waller, solicitor at Calgary; George Fox, superintendent at Edmonton; C. D. Porter and George Hutton.

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fernie, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life. It gives me great feelings, loss of appetite and gain in weight. It is a great tonic and I recommend it to all women. I do not know if I recommend it to all women for the simple reason that it comes at this time."

Mrs. W. V. Russell, R.R. No. 5, Fenwick, Ontario.

Air Patrol On Hudson Straits

Strait Open for Navigation Much Earlier Than Even Friends Of Route Anticipated

Flying operations have been resumed in Hudson Straits, and reports from the air force bases there that the ice has already cleared out of the eastern end of the channel and is broken up in the centre and western sections. It is the opinion of the airmen and marine officials stationed at the straits that an ice breaker could open a passage through the straits at present. No ice breaker is available, but the department announces that a vessel of this type will be available before next spring.

The weather in the straits is becoming easily navigable, it is on doubt, but it is quite clear that ice conditions are not nearly as heavy a handicap as has always been supposed, and that the straits will be open much earlier than even the friends of the route anticipated.

AVOID THE PAINS OF RHEUMATISM

This Trouble Comes Through Weak, Watery Blood

Many people suffer from rheumatism that cannot be relieved by medicine, and the disease continues with thin, watery blood, and can only be driven out of the system by an astringent that will make rich, red blood no medicines do. Dr. William Williams, a well-known physician, makes a blood, driving out all poisons, secretions, and creating a strong, robust health.

Thousands of rheumatism sufferers can testify to the value of Dr. Williams' Pink Liniment, according to Mr. Joe J. Tully, Bodie, Calif., who says:

"As a worker in the woods for 15 years, I was exposed to the cold of many winters, and I suffered from rheumatism. I could not bear the heat or cold. Many

times I could not sleep.

"I had no relief, and I could not get rid of it. Then I saw Dr. Williams' Pink Liniment, and decided to try them. The results were wonderful, and the stiffness gradually disappeared, and the aches and pains were gone. I am now in perfect health.

"After a few weeks the swelling had disappeared, and the stiffness gradually disappeared. The doctor gave me the best encouragement to other patients with rheumatism. I would like to tell him that I would be better if he could give me a few more bottles of his liniment. But instead of getting better, I grew worse, and my joints became very bad again, and my legs so stiff that they would hardly support my body. I could not walk, and I could not sleep.

"With intermediate fields not furthest apart than thirty miles, and each equipped for despatching by radio, the new service will remove much of the isolation from air transportation.

Most of the direction by radio will be done at night, when the plane's pilot must depend on his compass or light beacons spaced at intervals along the route.

Yukon Radio, which has been installed in the western sector of the continental air route, Ground radiophone stations are being set up, and a despatcher will be in charge of ground-to-air communication.

The equipment that will bring radio into practical contact with planes flying between the two countries will be installed in the western sector of the continental air route. Ground radiophone stations are being set up, and a despatcher will be in charge of ground-to-air communication.

You can get these pills through any druggist in medicine, or by mail at a cost of 25c. The "Williams' Medicine Co., Brooklyn, N.Y.

Great West Airways

First Commercial Flying Company On Prairies Is Established at Calgary

Backed by many of Calgary's prominent citizens, managed by Capt. F. H. McCall, D.H.Q.C., M.C., and known as the "Williams' Medicine Co., Brooklyn, N.Y.

Lindell, the first commercial flying company on the prairies west of Winnipeg, is expected to be in operation within one month, with Calgary as base, it is announced. The new service will be conducted on the basis of aviation in all the branches, including the giving of instruction to pilots and air engineers.

For Sprains and Bruises

There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain or bruise, draw the flesh and draw the pain. It will take the edge out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

British Liniment

A small local business in Britain are rapidly growing. Letters dispatched from London last year totalled 27,000 pounds, as compared with 17,000 in 1926. Air parcels were 16,000 pounds in 1926, and 15,000 pounds in 1927. Ten thousand pounds of letter mail were carried to European destinations alone in the past 12 months.

Many people are almost crippled with corns, but it is the spruey with Holloway's Corn Remover.

CHAPTER XXV.—Continued.

"Sam, I'm in our room. He had listened to many learned friends discussing with other learned friends, and he had become somewhat of a learned friend himself. He had one rule, 'admit nothing—deny everything.' Sam was there when it happened. He was honest, a well-dressed young man came asking for a Finnish girl with red hair. Sam knew nothing. In Sam's limited sphere the relations between men and women were not his concern. Maybe the police wanted his red-haired girl—that might be. Well Sam did not want to lose her; she was a good girl, honest girl—she rang up the right change. Sam did not usually trust any white girl with change, but he was glad when he had found one whom he could not detect, for it might be she was honest all the time.

"No," Sam said not knowing. Sam did not know anything. Sam did not tell Helmi, but she was a good girl—if winter falls she could not get no use gettin' nice girl all excited."

Helmi went back to the "Good Eggs Cafe" one day to see if it would be possible for her to be given longer hours. She had been a waitress, going to be sufficed for her mother. Her room rent was fifteen dollars a month, and even at that she supported the Corbets were paying some of it. She would like to go to work at two o'clock in the afternoon if Sam could find time. It had been very for a few days and another Chinaman had been in charge.

When Helmi arrived old Sam was at his accustomed place behind the desk, writing a letter. A man in a suit and tie sat in a chair. He had a white flower in his buttonhole, and resembled a church usher on Mother's Day. Helmi remembered how they looked all the time.

Too Much Acid

You will never use acids again when you know this better method. And you will never suffer from excess acid when you prove out this easy recipe.

Be sure to get the best quality

of Magnesia, greenish-yellow, in

pillules, and its value lies in stomach acids, and at once. The symptoms disappear in five minutes.

HERCULES PERMANENT BUILDING PAPER

SUCCESS ON PAPER

"Satisfied customers always come back." It's an old saw but it's true as ever.

Nowhere is its truthfulness more evident than where Hercules Permanent Building Paper is sold.

On ease of using alone, Hercules makes satisfied customers strongest, the most rapid handling fails to tax or crack it.

Hercules is tested and proven wind proof and damp proof.

Hercules will pave the way to greater success, on your sale of paper. Send for a sample book. In three grades

snow—but I drifted! Well where have you been?"

Helmi told her.

"Married? That's bad. But I knew it. I saw the ring—your wedding band. And your man's name or his middle initial, temporarily. He is only a miner—let him go—it's beauty you pay, I hear."

"But I want him to come back," said Helmi. "I love him, Rose."

"Isn't that like you, Helmi? Of course you do, and you have him, and I suppose you keep it too."

"I sure do," said Helmi.

Sam Lee had gone into the kitchen, and Sam Lee's maid close to Rose.

"Rosa, did you marry old Sam?"

"Kid, you said it!" replied the bride. "sure did—lure, ring, and all. Sam Lee, I believe, Rose Anna—she's a widow—Anglican clergyman doing the job."

"Rose, how could you? You're not only a Chinaman, but old—very old; he must be at least sixty."

"Sixty!" Rose almost shouted. "Don't you know he's eighty? I might look at him and say he might outlive me. Sam is safe—he'll snuff out like a gentleman. Little Rose, all alone think of it—with some forty thousand houses!"

"That's right," said Helmi, shaking her head. "good girl early. Old Sam nice little white girl now all his life. When we come, my girl—grand—girls. Sam Lee—drives big car my girl."

As he spoke a big gray car with silver mountings drew up to the curb, and a lady in a scarlet suit came out. She came into the "Good Eggs" and ordered a large meal, like some strange tropical dish. Helmi's eyes were so dazzled by the vision that in her admiring survey she had not yet reached the door.

"Come and see our house, Helmi; I've—rugs of blue and rose, with ornate tapistry in gold and lamps of hammered brass—on, come and see it. Some, some more ginger! Thanks, oh top. Lots of room for you, too, Helmi. I'll give you a room in rose and white, roses flowers, growing. Come, Helmi. We have a little run in the car, I've been pinched once for speeding, but I'm careful now. I want to tell you about what happened after you left."

Helmi went with Rose to the car and got in. The sudden rush of air, the delight of freedom, the sensation of freedom with these Helmi's fears fell away. Impulsively she hugged her friend's arm. "Oh, Rose, it's good to see you," said Helmi.

The man on the side-walks regarded them closely. One watched them with wicked-wise eyes, cynical and hard, the only gleam of gladness in them was the gleam of triumph of the parasitic parasite.

"Ladies," Seminary—no tradesmen's daughters allowed—remember? No, Helmi, you're not a student, you're in jail, and it makes them broad to go to jail; but for the sake of my son, captain, mom's the word, we could stamp it out altogether."

Since that first trip however, Dr. Barlow has discovered a more convenient way of carrying the germs. He keeps the parasitic eggs alive in a small jar, which he puts in his pocket. He has seen to be found in a human carrier, I chose myself, infected the germs and then has carried them to the United States. I was carried over to the United States and when I landed here he had dozens of them sealed in glass.

"We're making progress toward eradicating the disease," the doctor stated confidently. "If we had \$30,000 at our disposal, we could stamp it out altogether."

Our Foreign Words

Few People Know That Hundreds

Know This Every Day

How many foreign words do you use in a day? Perhaps hundreds.

It is true that by usage many words have become part of our own speech, but pool is Koi-te, it is Scandinavian, yacht is Dutch, water-geese are phantoms, and green is Latin.

Nearly every military term is French, grenade in Spanish, macaroni in Italian, esche in Portuguese, chintz in Hindoo, iliac in Persian, and hibiscus which comes from Hebrew, shophet is Arabic, boza is Turkish, sage is Malayan, and tea is Chinese.

Now I want to tell you something," said Major Govett, for it was he; "that girl has no legal hold on you. Come, Helmi, you don't need to be afraid. He has a history of the past?"

She has therefore no hold on you, so do not worry about that."

Jack turned away without speaking.

The loom of life went on with its usual hum. Helmi life the golden thread had gone. But, of course, the flying shuttles cannot stop to look for ends. The loom of life does the best it can with the threads its shuttles are able to bring, but it takes no responsibility for the pattern.

Jack turned away without speaking.

CHAPTER XXV.

Mrs. Kalinski and Mrs. Corbett were having a cup of tea in the latter's big room one afternoon when Mrs. Corbett had finished her duties as the owner's wife who could be got by the hour to "do out" rooms for the tenants.

"I've turned out Mrs. Brown and Mr. Storer today; given Mrs. Brown a tick and some, and Mrs. Storer a pinked-off snuff box," said Mrs. Corbett, as she set the peanut butter and strawberry jam on the table and proceeded to cut slices from the loaf. Mrs. Kalinski was still waiting.

"It's long time—the last month," said Mrs. Corbett soothingly, "since every day brings it one day nearer, and it's yourself has everything ready and fine and nothing to do but to hop into bed and let the neighbors and good old Helmi take care. I never saw a woman any reader than you are, with the name and all."

To Be Continued.

CHAPTER XXVI.

Mrs. Theodore Rivett, Ontario, Ont., writes: "Last Fall I nearly lost my life because of a severe attack of summer complaint. She became very thin and weak, had no appetite, and was unable to sleep at night without falling down. At last my mother advised me to get a bottle of

Badminton players find a drink of hot tea of great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No tea has a more robust, such quality. Put up only in bright, clean aluminum packages."

CROOKED TEETH

Nature is no bungler, but plans teeth should occlude, or come together, with caps interlocking as the cogs of two wheels which work in harmony." But when the teeth are thwarted, and there is an abnormal relationship known as mal-occlusion.

Many causes may have been cited contribute to this condition as masticating habits; faulty diet; overworking of the teeth; improper masticating habits; faulty diet; overworking of the teeth; and various diseases affecting tooth development.

But there is a type of mal-occlusion known as "cross bite." The teeth may in fact be exceptionally well formed and placed but are so arranged that the arch "per se" is at fault, either exhibiting a deformity, or being in an unnatural relationship to its fellow.

Mal-occlusion may be very noticeable, evincing a prominent over-jaw, or other facial deformity; but again, the facial contour may not necessarily indicate the presence of any appreciable extent of cross bite.

Apart from serious disturbances to the teeth themselves, the cross bite may lead to serious disturbances to the rest of the teeth. It is a condition that one or several teeth are receiving excessive stress, resulting in the bending of the bone around the tooth, or teeth, and menacing the life of the teeth involved. The cross bite may be so pronounced, particularly through disease, as to weaken structurally, leaving the mouth more susceptible to excessive masticatory movements, which, after all, is the best defense against the forces of tooth decay.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers

Say Baby's Own Tablets

A medicine for the baby or growing child that is safe and reliable and is assured is absolutely safe as well as efficient—is found in Baby's Own Tablets.

Thousands of mothers throughout the country, these mothers have found by experience that Baby's Own Tablets are a boon to their babies.

Concerning these Mrs. Charles Tuck, Toledo, Ohio, writes:

"I have used Baby's Own Tablets for my children for many years and can truly say that I know of no better medicine for the relief of colic, teething trouble, diarrhea, etc. I have given Baby's Own Tablets to many other mothers to equal them. Once a mother has used them she will never go back to any other.

PLANS MADE TO BROADEN WORK OF POOL

REGINA.—At the final session of the third International Wheat Pool Conference held here it was decided to broaden the work of the International Conference. Under the new plan Co-operative Producers and Co-operative Consumers the world over may be brought together in one large organization, so that each retaining its identity as an individual co-operative unit. In this connection the following resolution was passed:

"Whereas the values to the various co-operative associations of meeting in conference has been established, it is resolved that national committees be formed for the purpose of furthering such conference and that such national committees and joint representatives to the International Pool Conference Committee."

Another important conclusion to which the delegates came was that the International Conference again next year be left to the discretion of the International Committee which had charge of arranging details of this Conference.

In explanation of the national committee's resolution it was pointed out that the present International Conference Committee is responsible only of wheat pools, wheat marketing organizations. The Conference this year had been divided in its scope and for the first time representative organizations had been admitted.

By the formation of national committees, it was further stated during the discussion on the resolution, which would mean the creation of a national committee from the U.S., Canada and possibly later on the Argentine or any other wheat exporting country, the existing committees were of opinion that a broader representation could be sent to the International Conference. The present International Conference is to remain in existence and make the first move toward the formation of these national committees. This will be done, it is indicated, by way of a call from the committee to all the co-operative organizations in Canada to meet and form a Canadian national committee. Following this representatives would be appointed to work with the committees in the other countries that might desire to participate and thus the International Conference would be representative of all classes of co-operative producer endeavor.

Not Wanted in England

HARRY THAW IS DENIED PERMIT TO LAND AT SOUTHAMPTON.

Southampton, Eng.—Harry Thaw, arriving at Southampton aboard the Aquitania for a visit to England, was refused permission to land by the immigration authorities. Thaw, who had entered a British visa before sailing, nevertheless was not allowed to land.

He was informed that the home office had issued an order of prohibition and it is supposed that he will be obliged to return to New York on the Aquitania.

Many Nations Represented

Toronto.—It is expected that 65 nations will be represented in Toronto when the International World Congress holds its fourth congress here, June 23-29. About 7,000 delegates are expected, representing some 12,000,000 baptists throughout the world. The roll call of nations on Saturday, June 23, probably will be the most picturesque session.

JOKE WAS COSTLY

Bethelburg, Ont.—Teaching much to the policeman—polished clothing of his friend, John Burton, last year, cost John Flinsky \$900 and costs. Burton spent several weeks in hospital, and nearly lost his life. He was out of work five months as a result of "joke."

Expect Cable Conference Report

London.—The report of the Imperial Cable Conference, in which the Dominion government was represented, will be made shortly, the Canadian Press has learned. It is believed the committee will propose some scheme for maintaining cable communications intact.

No Danger of War

Toronto.—Sir John Aird, president of the Canadian Bank of Commerce, after an extensive trip in Europe, stated in an interview here, he is confident that there was no danger of another outbreak of war.

W. N. U. 1737

No Evidence of Grafting

Immigration Inquiry Report Examines Members of Parliament

Ottawa.—The parliamentary immigration inquiry report was tabled in the House of Commons. The document contains little of a drastic nature, but does contain recommendations for the improvement of Canadian immigration activities in Canada.

Evidence in detail respecting the organization of the department of immigration and colonization work—carried on both separately and in conjunction with the various government departments which conducted the inquiry. All phases of the department's immigration and colonization work—carried on both separately and in conjunction with the various government departments—were examined and the testimony of a long list of witnesses was received.

Mr. A. J. M. Coldwell, Regina, who made charges last summer that members of Parliament had trafficked in Indian Affairs, was called to give evidence. Hon. Charles Stewart, minister in charge of the department, told of privation which had been suffered by the Eskimos in the past and the efforts which were being made to eliminate it.

Mr. Stewart also informed the House that the department was having some trouble providing relief for Indians in the Northern territories, and declared some arrangements had been made with provincial governments to provide hunting grounds outside the present reserves. If placed in competition with white men the Indians would starve to death.

CONSUMERS OF BRITAIN HAVE NO FEAR OF POOL

REGINA.—At the International Pool Conference held here, a message of goodwill was brought by the delegates from the British Isles.

The distinguished guests from England and Scotland told the conference of the desire of hundreds of thousands of co-operative consumers in the Old Land to remove the barrier that appears to exist as between the two classes of consumers and each to assist the other in the creation of a truly co-operative body composed of both producer and consumer.

Miss Agnes MacPhail, Progressive, South Grey, made a vote of \$1,000 for cadet service to be reduced to \$1. Miss MacPhail's amendment was declared valid and the item itself carried.

At the debate, Miss MacPhail asked Hon. J. L. Ralston, Minister of National Defence, how he accounted for his failure to do his duty in the only case which "underlies" education which was under consideration.

To this the minister replied that the bill was carried out without the consent of the provincial government.

Miss MacPhail's amendment was declared valid and the item itself carried.

During the debate, Miss MacPhail asked Hon. J. L. Ralston, Minister of National Defence, how he accounted for his failure to do his duty in the only case which "underlies" education which was under consideration.

To this the minister replied that the bill was carried out without the consent of the provincial government.

Miss MacPhail's amendment was declared valid and the item itself carried.

To this the minister replied that the bill was carried out without the consent of the provincial government.

Miss MacPhail's amendment was declared valid and the item itself carried.

During the debate, Miss MacPhail asked Hon. J. L. Ralston, Minister of National Defence, how he accounted for his failure to do his duty in the only case which "underlies" education which was under consideration.

To this the minister replied that the bill was carried out without the consent of the provincial government.

Miss MacPhail's amendment was declared valid and the item itself carried.

EDITORIAL

We once heard a man say, "I have all the bones in the human set out in the cemetery with rocks on them to hold them down and our personal opinion of what they are like." Well, that is that he ought to be rocked to death and laid away out there with them. What is yours?

F. S. Racher has placed an order for a 10ft. McTig's Twine for \$10.00. Swather, Herb says he thinks that the price of grain and put 11,000 in the elevator for a cash outlay of \$700.00 with his combine last year.

Most any woman can love her husband in spite of his being a big fool, or even having no morals, but she can't love him if he is frightened.

Hundreds of our grain growers were disappointed last year because we were unable to get Mc-D's Combine. Demands for 1928 already indicate a real shortage again this year. Don't be disappointed. Order your Combine now.

John Long says: "What about the twine?" "I think before the word 'cut' was invented?"

Weeks are the whiskers of neglect. Share them with a Mc-D. weeder.

"Good Equipment Makes a Good Farmer Better"

Local and General

Keeping the streets in passable condition is quite a problem for the village council. As Bob Tyler says: "As soon as we get them dragged it rains again."

A homing pigeon flew into the door of the Elks Club and sat on the window sill while the family were eating dinner. The bird stayed around for a few hours and then left in the direction of Calgary.

Mrs. J. M. Moffatt is recovering slowly from her illness and it will be some time yet before she is able to be around. Numerous friends will be around to help her return to health will not be delayed.

The return of Clark Rhodes to Champion will be appreciated by a large number of friends in this district. His family is still at Hillcrest but will move here as soon as house-room is available.

The building formerly occupied by Gundersen Nerson and recently purchased by Messrs. Barberis and Lombardi, is being fitted up as a confectionery and ice cream establishment, and will be open shortly to the public.

A. W. Taylor has provided himself with a splendid office by moving his cook car on to the lots formerly occupied by the Beaver Lumber Co. He may be a little far from the mad-dog crowd in some ways, but as a general proposition he regards the partial seclusion as perfectly satisfactory.

Gunder Nerson was a visitor here over the week-end from Kirkcaldy. He is highly pleased with the prospects ahead in his new location. He considers it likely he will sell his stock of groceries and open up in hardware and implements in the near future.

K. R. McLean R. O., Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly professional visit to Champion, at the Drug Store, Friday, June 29th.

KNOWING how is half the fun of repelling battle but only half. The other half is having the proper electric machinery and the best of leathers. We're here to repair your shoes comfortably and fashionably.

PEKIN IS IN HANDS OF ENEMY—CHINESE NATIONAL CAPITAL IS TAKEN OVER BY SOUTHERN FORCES

Pekin, June 8.—(Via Naval Radio)—This city, former seat of government of the northern Chinese war lords, was taken over by the Nationalists at 10 o'clock this morning in an orderly manner.

Shansi troops marched through the south and southwest gates as the main revolutionary Nationalist garrison departed.

The last five-barred republican flags faded from the sky as the white plumes were the black and the red, white and blue of the Nationalist and Kuomintang banners. The vanguard of the Shansi revolutionaries, numbering about 500, marched in an orderly manner through the south and southwest gates, billeted themselves in the Foreigner's Hotel grounds within the Chinese section of the city at Coal Hill, northward of the forbidding city wall.

City Surrounded

Pekin, June 8.—(Delayed)—Several thousand Nationalist troops are surrounding the walls of Peking and the city gates are closed. They are moving toward a peaceful establishment of a new regime.

With the new air service, mail matter can travel from any manufacturer to the farthest waste basket in four days.

In a very small town people can point out some exponents of crime to prove that stock exchange gambling is wicked.

If inanimate things can't think, how does a weak tire know when you have a new spring suit?

The world isn't improving in some respects, but you seldom see a quill toothpick.

Easy Terms. B. M. ROBERTS

While no money was secured in Stephenson's store his safe was damaged to some extent in breaking the steel inside door, the combination lock being broken and the main door open. McCullough Bros. furnished no cash but goods may have been taken. The police was notified and was on hand promptly but practically no means of tracing the thieves could be found. This sort of thing is becoming altogether too common in this particular corporation and steps should be taken in some way to trap the guilty responsible.

The Carnanay Agricultural Society proposes to offer two prizes of \$50 and \$25 dollars for community exhibits from Carnanay and Barons at their fair this year and the mutton has been referred to the Women's Institute with the suggestion that they take the matter in charge. The exhibit is to consist of grains, vegetables, roots and grasses and a Space six feet by twelve feet will be provided for the display. There can be practically no doubt that should the Institute not consider the proposition favorably other arrangements will be made to prepare the exhibit. It would be interesting to see just how good a display could be made from this vicinity, besides it would be highly desirable to be sufficiently neighborly as to take an interest in the Carnanay fair to a much greater extent than has been the case previously.

In the present instance the directors of the fair have made a proposition, so fair in every way, to stimulate interest in the adjoining towns that to ignore it would be churlish.

W. I. Entertains Other Branches

A long to be remembered afternoon was spent in Campbell's hall on Tuesday, June 12, when the Champion Women's Institute entertained other branches. Nearly 200 ladies participated.

The president, Mrs. J. N. Beaubien presided. A short business meeting was held and it was decided to hold another on June 26th.

As chairman of entertainment committee Mrs. Alcock took the chair. A very enjoyable program was presented. The musical talent being exceptionally good. Appreciation shown by all being encouraged. Solos were given by Mrs. Dodds of Vulcan, Mrs. Roberts of Barons, Mrs. Daw-
